Explore recommendations and next steps

Ready to Optimize Microsoft 365 Copilot Deployment?

Microsoft 365 Copilot is a revolutionary AI-powered assistant that helps you create, communicate, and collaborate more effectively. With Copilot, you can use natural language to generate content, get insights, automate tasks, and more.

But how do you get started with Copilot and make the most of its capabilities? That's where the Copilot Deployment & Adoption Accelerator comes in. It's a comprehensive service that helps you plan, deploy, drive adoption and optimize Microsoft 365 Copilot in your organization.

The Copilot Deployment & Adoption Accelerator is delivered by certified partners like Maureen Data Systems who have the expertise and experience to help you achieve your goals.

Framework

Get ready

Identify business needs, scenarios, success criteria, and develop a user enablement strategy.

Onboard & engage

Conduct technical readiness activities (security, compliance, governance) and implement Microsoft 365 Copilot in selected departments.

Deliver impact

Monitor adoption and value of Copilot, gather feedback, and share success stories.

Optimize & extend

Explore new opportunities to leverage Copilot, including custom plugins and applications in Sales or Service.

What to Expect

Unlock the value of Microsoft 365 Copilot for your business.

- » Customized engagement to deploy and maximize Microsoft 365 Copilot, an AI assistant for content, code, and data creation
- » Technical readiness, user enablement, and business impact activities aligned with key scenarios and personas
- » Flexible, modular approach tailored to your specific needs, with optional and mandatory modules

Why Should You Attend?

Boost productivity and creativity with Microsoft 365 Copilot. Prepare your organization for AI transformation with expert guidance. Measure the impact on growth, cost savings, and employee satisfaction. Enjoy faster deployment, higher user adoption, and a stronger culture of innovation and collaboration.
